sustainable plywood*

* The laminate finishes shown in this brochure are not suitable for exterior use.

The figures included in this technical data file are for information purposes only and have no contractual value. The formats, dimensions, thickness, plies and technical characteristics may vary with no prior notification based on new developments and technological advancements. The buyer is responsible for deciding whether the Garnica product is suitable for the desired application, and will be required to ensure that the location and way in which it is used are suitable according to the manufacturer's instructions and suggestions, as well as its compliance with current regulations.

Health and safety: The user/recipient of the product is obliged to carry out risk assessments of the people whom are going to process/transform it based on the local health and safety legal requirements, implementing the necessary controls in order to provide appropriate preventive measures: e.g. manual handling, dust extraction in case of cutting/sanding, use of personal protection equipment, etc. You can request more information at info@garnica.one.

Garnica laminate products are especially designed for decoration and furniture-manufacturing applications in which lightness, beauty and surface hardness are major considerations.

Mobility and transportation:

converting vans to campers, interior furnishings for caravans and the marine industry

Interior decoration:

panelling, roofing, doors, mouldings and all types of decorative panelling

Interior furnishings and DIY projects:

wardrobes, shelves, tables, chairs and all types of kitchen furniture
