poplar

100% EUROPEAN POPLAR LIGHTWEIGHT PLYWOOD

Lightweight panel made entirely of European poplar sourced from sustainable tree farms. Its light colour and the smoothness of the veneers make it ideal for painting or covering.

Maximum sustainability due to its poplar core sourced from fast-growing tree farms. This wood provides lightness, stability, surface quality and machinability.

Applications:

Extremely versatile range that translates into a multitude of applications, such as interior construction, furniture manufacturing for caravans or vans and public and private establishments.

Available with PRM primed finish with 80 microns of water-based acrylic paint, designed to reduce time and cost for the end user who finishes the board with a final coat of paint.
